JAMAL SIRAJ

Software Engineer | IT Support

+233 26 176 0077 sirajjaml005@gmail.com github.com/XenderLand
Accra, GH

SUMMARY

Passionate Software Engineer with 3+ experience in developing web, mobile applications and backend systems. Skilled at writing clear, concise code that is easy to maintain and troubleshoot. Experienced in working in both small and large teams across multiple projects and companies. Able to work independently of remote locations or in office environments as needed by company.

PROFESSIONAL EXPERIENCE

Software Engineer — 2025 - Present
Freelance — Takoradi. GH

- Designed and developed full-stack web and mobile applications using React, React Native, Node.js, Express, MongoDB, Firebase, and Django.
- Built a university-based social media platform with authentication, posts, real-time chat, notifications, and admin moderation dashboards.
- Designed and implemented admin dashboards for analytics, user and content moderation.
- Created real-time messaging systems using Socket.IO and Firestore listeners.
- Optimized application performance and improved UI/UX using Tailwind CSS and modern React patterns.
- Managed project deployments and environment configurations.

Full-Stack Developer — 2024 - 2025
Logic Kids — Takoradi. GH

- Designed and developed reusable components with is used in 3 different project with reducing development effort by 50%.
- Created responsive interfaces for 5+ client projects using my experience in UI/UX (Figma), improved user engagement by 35%.
- Integrated cloud databases, authentication, and real-time data synchronization using Firebase.
- Optimized application performance and improved UI/UX using Tailwind CSS and modern React patterns.
- Built scalable full-stack applications using MERN stack, React Native, and Firebase.

Junior Frontend Developer — 2023 - 2024
Logic Kids — Takoradi. GH

- Implemented REST APIs, database schema design, and role-based access control.
- Integrated third-party services including Firebase Authentication, Cloud Firestore, OneSignal notifications, and OpenAI APIs.
- Followed clean code principles, Git version control, and mobile-first UI design using
- Tailwind CSS.
- Deployed and maintained applications using Render, Netlify, and Firebase Hosting.
- Collaborated with designers and testers to deliver production-ready software solutions.

EDUCATION

Bachelor of Technology in ICT - Software Engineering — 2022 - 2025
Takoradi Technical University — Takoradi, GH

Professional Diploma in ICT — 2021 - 2022
Takoradi Technical University — Takoradi, GH

ACHIEVEMENTS

Core Achievements

- Designed and deployed multiple full-stack web and mobile applications using React, React Native, Node.js, MongoDB, Firebase, and Django, from concept to production.
- Built a university-focused social media platform featuring real-time chat, groups, authentication, notifications, and admin moderation tools.
- Developed and deployed RESTful APIs with secure authentication, role-based access control, and database optimization.
- Deployed production-ready applications using Netlify, Render, and Firebase Hosting, gaining hands-on DevOps experience.

Technical & Performance

- Designed scalable database schemas for MongoDB and Firestore to support high-volume user interactions.
- Integrated third-party services including Firebase Authentication, OneSignal push notifications, and OpenAI APIs.

Learning & Professional Growth

- Self-taught and mastered multiple modern technologies, including MERN stack, React Native, Firebase, and cloud deployment workflows.
- Continuously delivered production-quality software projects, demonstrating strong problem-solving and independent learning ability.

Skills

Programming Languages

- JavaScript (ES6+)
- Java
- Python
- C#
- C++
- HTML/CSS
- PHP
- MySQL

Frameworks / Tools

- React
- Node.js
- Django
- Firebase
- Tailwind CSS
- MongoDB
- Figma
- React Native
- MySQL
- PostgreSQL
